QUALIFICATION REQUIREMENTS:

This position requires the following qualifications requirements to perform the above duties and carry out the above responsibilities. Candidates who are applying for this vacancy are responsible for providing sufficient evidence to show they fully meet the qualification requirements.

BASIC REQUIREMENTS: Degree: dietetics, food, nutrition, food service management, institution management, or related science.

REGISTRATION REQUIREMENTS: All Indian Health Service Nutrition Program professional staff delivering nutrition and dietetic services to American Indians/Alaska Natives (AI/AN s) must be registered by the Commission on Dietetic Registration of The American Dietetic Association.

OTHER REQUIREMENTS: Applicants who meet the basic requirements described above are fully qualified for the specified entry grade (generally grade GS-5). Applicants who wish to qualify for positions at higher grade levels (generally grade GS-7 and above) must also meet the requirements shown below, in addition to meeting the basic requirements.

One year of Specialized Experience: This is experience that equipped the applicant with the particular knowledge, skills, and abilities to perform successfully the duties of the position, and that is typically in or related to the work of the position to be filled. To be creditable, specialized experience must have been equivalent to at least the next lower grade level, GS-7, in the normal line of progression for the occupation in the organization.

Specialized experience equivalent to the GS-7 grade level is work experience that is typically in or related to the work of job at the next lower grade level in the normal line of promotion (or progression) of the position, that is the pattern of upward movement from one grade to another. In addition, experience at this level is typically required for position where applicants must have demonstrated that they possess the ability to perform successfully the duties of a position after a normal orientation period.

OR

Completion of graduate level education in the amounts shown above, in addition to meeting the basic requirements, is qualifying for positions at grades GS-9 if it provided the knowledge, skills, and abilities necessary to do the work. One year of full-time graduate education is considered to be the number of credit hours that the school attended has determined to represent 1 year of full-time study. If that number cannot be obtained from the school, 18 semester hours should be considered an academic year of graduate study. Part-time graduate education is creditable in accordance with its relationship to a year of full-time study at the school attended.

COMBINATION OF GRADUATE EDUCATION AND PROFESSIONAL EXPERIENCE: Combinations of successfully completed graduate level education and specialized experience may be used to meet total experience requirements. Only graduate level education in excess of the amount required for the next lower grade level may be combined with experience. For example, an applicant with 6 months of appropriate experience equivalent to GS-7 (50 percent of the experience requirement for GS-9) and 27 semester hours of appropriate graduate education (50 percent of the education requirement for GS-9, in excess of that required for GS-7) would be qualified for a GS-9 position (assuming that there is no evidence that the attended college or university requires more than 18 semester hours as equivalent to a year of graduate study).
